

Data Integration: Mass Notification for Business Organizations

Integration is seamless, hands-free and saves time

Cost, efficiency, safety and reliability... there's a lot to consider. Put OnSolve® One Call Now's high performance communications to work for your organization to save time, reduce costs and keep people informed. One Call Now offers integration tools and options to ensure your data is accurately transferred to our system. Set-up is always efficient and completely secure.

Tech Talk

One Call Now uses cloud computing technology, so message initiation requires no software purchase or installation. Other providers use hardware dialers — housed at your facility — for day-to-day phone calls and use web-based notification only for emergencies.

We own, manage and invest heavily in our own multiple sets of telephony, text and email servers

Geographically diverse facilities; triple redundant systems

System designed for 2000% average daily volume

Cross connect to multiple long distance carriers

Dynamic pacing assures best delivery

Import Contacts:

The Fastest Way to Get Started

Walks you through a simple step-by-step process to upload a spreadsheet of contact information directly to our servers.

We Don't Waste Your Time or Your Money

One Call SYNC

For Organizations With Large or Frequently Changing Databases

Automates transfer of contact lists exported from your database. Launches attendance or any other pre-defined calls through your One Call Now account. Updates continuously.

One Call Now

Cloud Computing Technology

- Does not tie up your IT staff
- No hardware to buy or install
- No PBX add-ons, no additional phone lines, no additional phone equipment
- No charges for ring time or multiple re-dials to busy and no-answer numbers
- No long-distance charges
- No per-call fees
- No tying up your internal phone lines or interruptions to your operations

Other Providers

Hardware Dialers Housed at Your Facility

- Maintained by your IT staff
- Use your phone lines
- Costly for you to maintain
- You pay local and long distance charges
